

### SCIENCE- SOUNDS

Year 3 will learn about keeping the human body healthy through nutrition and exercise.

We will look at skeletons in humans and other animals, understanding the names and functions of bones in the skeleton.

### LITERACY

We will be reading and listening to fables from Michael Rosen's version of Aesop's Fables and writing our own fables.

We will then be looking at shape poetry and calligrams and creating our own poetry about movements.

Children will then write persuasive letters to children in another class encouraging them to eat healthily.

### MATHS

We will continue to look at addition and subtraction. We will then move to looking at multiplication and division.

### COMPUTING

We we be using Purple Mash to explore sequencing and coding. We will continue to explore themes around online safety.

# Healthy Humans YEAR 3

### RE

After completing our baptism unit, children will spend two weeks learning about Judaism. Children will learn what the inside of a Synagogue looks like and some of the customs of Judaism.

We will then move onto our advent unit called Visitors which looks at the coming of Jesus.

### PE

We will be looking at the skills surrounding tag rugby- passing, position and scoring.

We will also begin to look at dance and explore movement.

### Art and Design

We will be studying Claes Oldenburg's textile food sculptures. We will be starting to record in our sketch books to make sketches of food in different medium. We will then make 3D sculptures of foods.

### Music

We will be learning how to play and instrument with Mrs Fox and learning about notation.

### Design and Technology

We will be designing healthy picnic food and a container to transport it in.
